FALL 2011

Fluid and floaty.....maybe trimmed in fur; ruffled, sheer, lacy.... these are words that describe this fall's fashions. Some trends continue from last season (Yeh! You're still in style) and some are brand new. Tunics, vests, over-sized floaty cardigans, long sweaters, layered over leggings, jeggings, and straight legged pants all continue to be strong. Layer longer tops under shorter jackets, layer long sleeves under sleeveless and shorter sleeves. Just layer! (check out our tube tops and half cami's to avoid too many tank layers.) Longer skirts and dresses are the latest in length. And you are even allowed to wear sheers for panty hose. Dresses are for every day not just Sunday. Wear them with your sandals now; boots and ballet flats later on..

Yes, you can! No one is too short for a tunic top. But, how you put it together and what style you get is important. Keep the hem uneven, not straight across. Sides that dip, and fluttery labels help too. Wear with narrower through the thigh pants, not your classic trouser type. And keep it tonal....match the colors in the top to the bottom. Oh, and it's now ok again to match your shoes and your bag to your outfit.

Colors are deeper, richer.....plum, cobalt, teal and lots of grey. Top handled bags are lady like and smaller. Scarves continue to be oblong and add lots of color. Earrings are long and chandelier type and necklaces are chunky multi-layered and "messy". Gold! Gold is big. Got it? Get it out. No? See us.

As Tim Gunn likes to say....."make it work"
We are here to show you how!

WEAR IT! GIVE IT! LIVE IT!
